Other Notes:

Rewards vary for some merchants (particularly travel and electronic sites) based on the item purchased. Where varied rates were listed, the chart lists the highest rate. Some purchases (video game consoles, most store Gcs) are ineligible for rebates. Be sure to read the exclusions and fine print at the rewards program before clicking through to your desired merchant.

BondRewards' shopping rates are based on the current value (\$25) of their cheapest redemption (a \$50 savings bond).

Jellyfish allows a merchant to offer different rates for each product; the listed rebates for Jellyfish represent the lowest available rate. Actual rebates may be higher depending on the product.
